Happi Jobs- Sahaj Retail Ltd

What are we Solving

For Job Seekers

Helping them find sustainable livelihood, and revive their economic condition.

For Employers

Helping them find the right candidate, within their hiring budget & stipulated time

What are we Building

- By building a database of Job Seekers (Blue Collar), through our existing SM Channel.
- Which then can be packaged and sold to the Employers / Consultants/ Smaller Businesses.
- Who can then hire these candidates for all the blue collar jobs available in their organization.

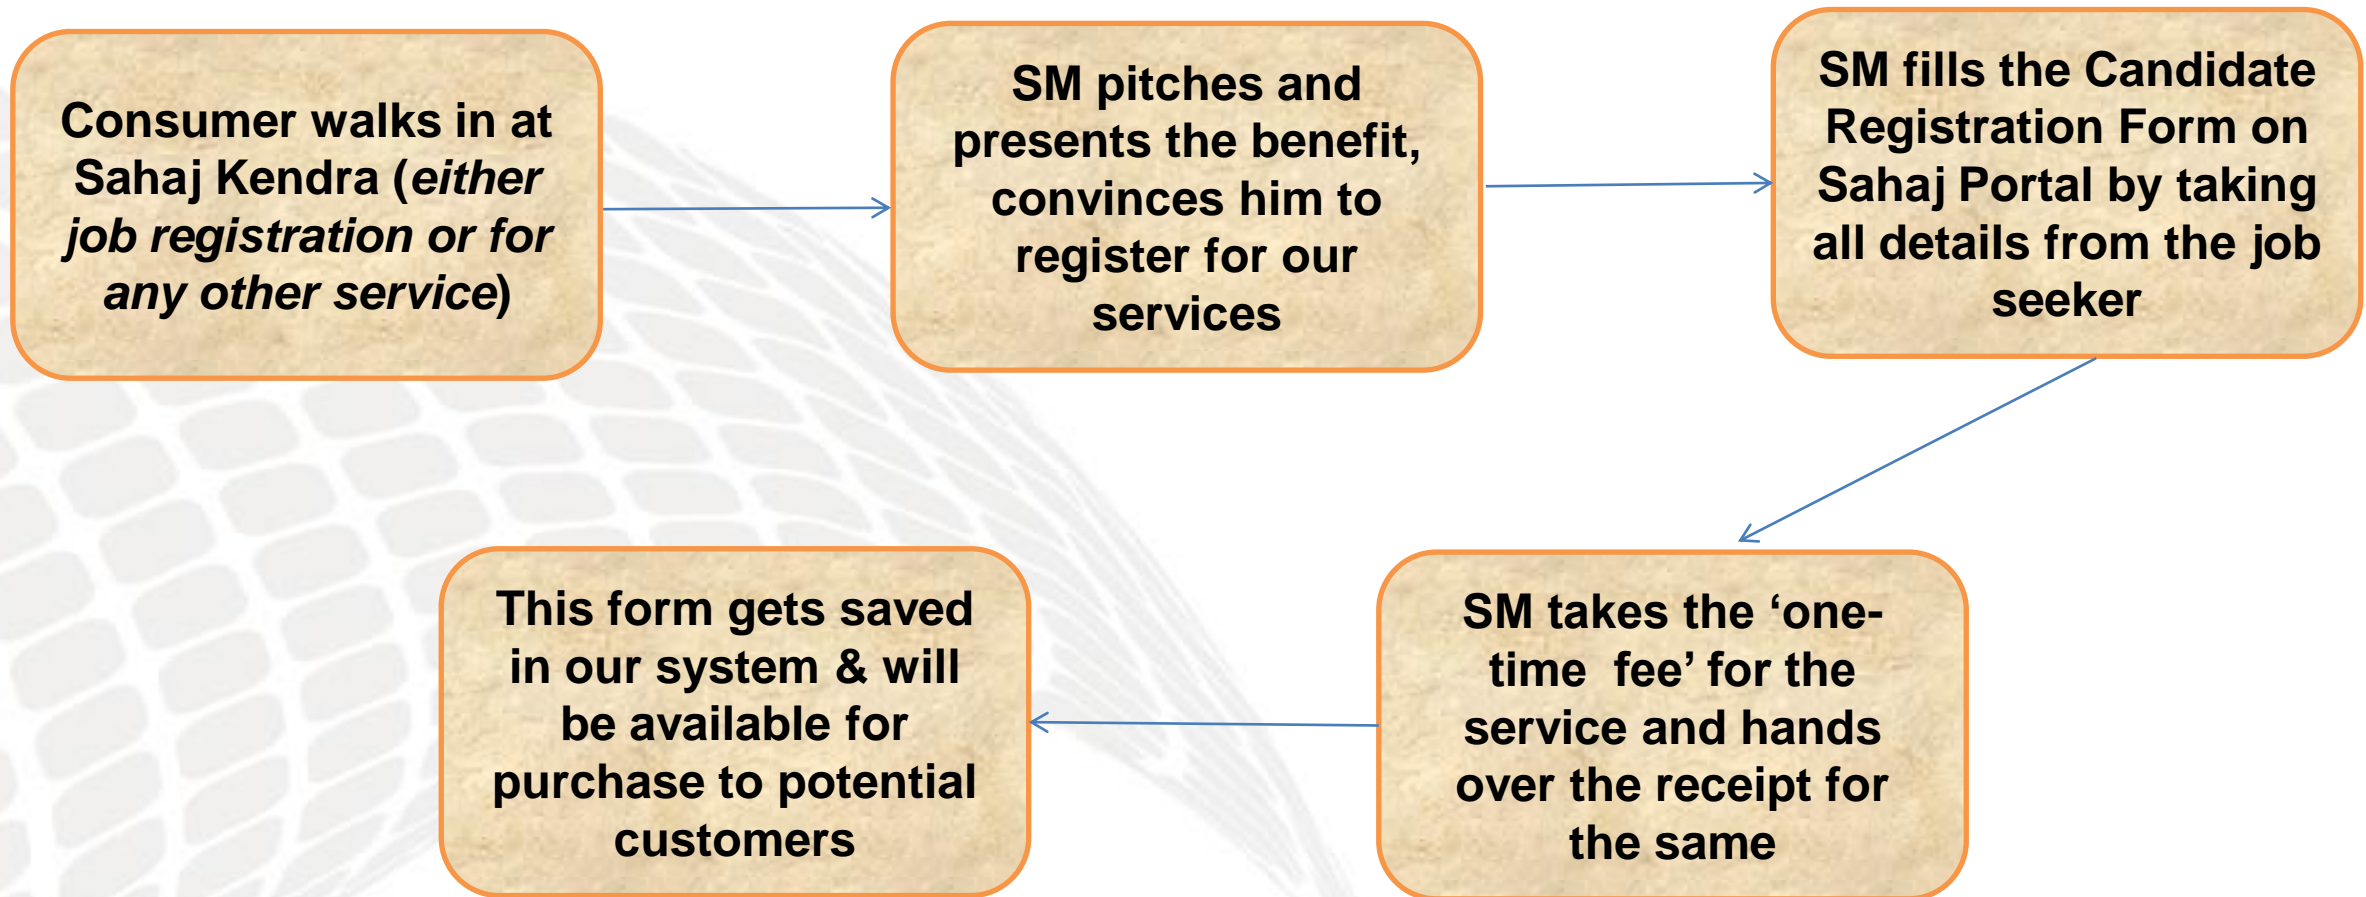

Blue Collar Job

- Tends to be more of manual in nature.
- It involves unskilled, semi-skilled & skilled labor force.
- Requires less education / or a basic technical qualification.
- Is typically paid by the hour or by piece rate depending on the work completed.

Process Flow

- Never commit a job guarantee to any job seeker. Never! Explain to him the process again if he asks you about the job guarantee.
- Please fill up all fields as per the instructions provided to you during the training. Kindly refer to the manual in case of any confusion.
- In the initial few days, please take time to fill up the form. As you understand the process you will start to pick up speed, and it won't take you more than 15 mins per form.
- Mobile numbers are mandatory and must be OTP verified.
- There will be a lag time in the candidate registering with us and then he finding a job. Because unless the database is created, we won't be able to take it to prospective employers. And then they start using this database to contact the registered candidates. So please align the candidates about this process at the time of registration only.
